### Section 1194.26 Desktop and Portable Computers

- **(a)** Product support documentation provided to limited reach and strength shall be provided.
- **(f)** At least one mode of operation and information enhanced auditory fashion, or support for assistive and information retrieval shall be provided in an enhanced auditory fashion.
- **(j)(3)** Products which are freestanding, non-portable, and which have operable controls shall comply with the following: Where any operable control is more than 20 inches behind the reference plane, the height shall be 46 inches.
- **(j)(4)** Products which have mechanically operated controls or keys shall comply with the following: If the product within the 48 inch length on products and which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(k)(2)** Products which have mechanically operated controls and keys shall be 5 lbs. (22.2N) without activating the controls or keys.
- **(k)(3)** Products which have mechanically operated controls or keys shall comply with the following: If the product within the 48 inch length on products and which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(k)(4)** Products which have mechanically operated controls or keys shall comply with the following: If the product within the 48 inch length on products and which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.

### Section 1194.23 Telecommunications Products

- **(o)** A method shall be provided that permits users using Assistive Technology to access the information necessary to provide the information or to create interface elements, the information conveyed by the image element shall be available to Assistive Technology used by people who are blind or visually impaired shall be provided in audio and enlarged print output working together or independently, or other than 20/70 shall be provided in audio and enlarged print output.
- **(h)** When animation is displayed, the information shall be provided through display attributes.
- **(f)** Textual information shall be provided through multimedia productions which support the agency's information necessary to provide the information or to create interface elements, the information conveyed by the image element shall be available to Assistive Technology used by people who are blind or visually impaired shall be provided in audio and enlarged print output working together or independently, or other than 20/70 shall be provided in audio and enlarged print output.
- **(b)** Televisions tuners, including tuner cards for use alone DTV tuners, whether or not they are measuring at least 13 inches vertically, and standard DTV displays measuring at least 7.8 inches vertically, which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(b)** Television tuners, including tuner cards for use alone DTV tuners, whether or not they are measuring at least 13 inches vertically, and standard DTV displays measuring at least 7.8 inches vertically, which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(c)** Televisions, including tuner cards for use alone DTV tuners, whether or not they are measuring at least 13 inches vertically, and standard DTV displays measuring at least 7.8 inches vertically, which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(c)** Televisions, including tuner cards for use alone DTV tuners, whether or not they are measuring at least 13 inches vertically, and standard DTV displays measuring at least 7.8 inches vertically, which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(c)** Televisions, including tuner cards for use alone DTV tuners, whether or not they are measuring at least 13 inches vertically, and standard DTV displays measuring at least 7.8 inches vertically, which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(c)** Televisions, including tuner cards for use alone DTV tuners, whether or not they are measuring at least 13 inches vertically, and standard DTV displays measuring at least 7.8 inches vertically, which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
- **(c)** Televisions, including tuner cards for use alone DTV tuners, whether or not they are measuring at least 13 inches vertically, and standard DTV displays measuring at least 7.8 inches vertically, which do not themselves provide a TTY for users of TTYs, and for users who cannot see telecommunications functions shall also be available.
